COVID-19 Response:

Boomerang Moving & Storage is classified as an essential business and we plan to remain open throughout the duration of the Covid 19 pandemic to the best of our ability.

We understand moving can be stressful especially in light of the current situation. It is our aim to help you relocate your belongings in the least stressful manner as possible and so we ask that you please read our guidelines below. Safety for you and our team members is of critical importance at this time.

Safety Guidelines

Clients:

We ask all clients to assist us in an effort to limit the spread of the virus by adhering to the following guidelines.

- **Sickness:** If anyone is sick in your household we ask that you please contact us to reschedule your move. There will be no rescheduling fee for doing so.
- **Sanitization:** Please wipe down all hard surfaces as best as you can with sanitizing wipes, clorox spray, or any chemical that kills viruses. This includes door knobs, doors where hands typically touch, furniture, light switches, furniture etc..
- **Social Distancing:** Please keep a minimum of a 6 foot distance between anyone in your residence and our crew members.
- **Limit on Group Gatherings:** Please limit the number of people in your residence during the move.

Boomerang Team Members

All team members have been informed about the following safety protocols.

- All trucks are wiped down inside and outside the cabs before and after every move.
- Handwashing stations have been put into use where employees are required to wash hands before entering a vehicle, a building, as well as before and after all moves.
- All surfaces and commonly handled components are frequently wiped down. This includes bathrooms, counters, sinks, door handles, desks, phones, light switches, keyboards/mice, and moving equipment.
- Employees will wear gloves on all moving and packing services and dispose of them promptly after.
- Team members and customers will be asked to abide by the recommended 6 ft distance between people whenever possible.
- If a team member is not feeling well or has come into contact with a sick individual showing signs of the Covid-19 virus, we have asked them to stay at home. There is zero tolerance for a sick employee to be dispatched or remain at work.
